

Our shop bestsellers at a glance

With their different possibilities, our slip rings offer tailor-made solutions for various industrial applications, from production to research. Our range includes a variety of state-of-the-art systems that enable the flawless transmission of power, media and data via rotating components.

Depending on the machine type and intended use, the installed slip ring must meet specific requirements. To help you find exactly the right product, we offer two categories of slip rings in our online shop. Each available in different versions.

MIA - Modular Industrial Application

Our MIA modular system allows you to configure slip rings individually for your application - whether power, signals, data or media. **10 weeks delivery time.**

FORJ - Fiber Optic Rotary Joint

With almost limitless high data rates*, you can configure your 1-channel FORJ individually using our FORJ modular system - whether multimode (OM1, OM4) or singlemode variant. Connectors and fiber length can also be configured.

8 weeks delivery time. *Depending on your electronics.
